

THE BUILDING A NEW WORLD STUDENT CONFERENCE

Dear Student Leader,

May this correspondence find you in the best of health and spirit.

Let me share some alarming statistics with you from major institutions:

1. One person is murdered every sixty seconds: World Health Organization.
2. There have been more than 250,000 Black-on-Black homicides since 1976: Department of Justice.
3. Nearly 53 % of recent college graduates are jobless or unemployed: The Atlantic.
4. Over the past eight years student loan debt has grown by nearly 300%, crippling the financial stability, dreams and aspirations of millions of young people nationwide: The Guardian.

Based on the above Actual Facts, a new world based on the principles of freedom, justice, and equality, is needed. Yet, without students like yourself organized into a formidable force, the needed world will never come into fruition. It is for this reason that The Nation of Islam will, for the first time, collaborate with student leaders and organizations from across the country to convene a national conference of college students in the city that is home to the historic Tuskegee University in Tuskegee, Alabama. The conference will be convened Saturday, October 19, 2013 at the Tuskegee Municipal Complex in Tuskegee, Alabama. The theme of the conference is, "Building A New World", and will address the following workshop topics:

- How to organize and maintain a student-based movement in the 21st century?
- Student Loan Debt: A Campaign to Rob the World of its Future.
- The Proper Education of the Black Student: Ideas and Issues Every Black Student should know about.
- Agriculture: The Key to Our Success, Self Defense and Survival.?
- And much more!

The objective of the conference is:

1. To inspire students to acquire the knowledge needed to become the architects of a New World.
2. To organize students from around the country into a formidable political and economic pact dedicated to addressing issues of concern.
3. To convene students of all nationalities in Tuskegee, Al. to re-examine and re-assess the economic and social vision of Booker T. Washington, and to determine its relevance in the 21st century.

Every generation of students must determine its mission, and sacrifice the time, energy and resources needed to ensure a better future for those yet unborn. Today's generation of students are no different, the responsibility to build a new world lies with us.

The Building A New World Student Conference will convene on Saturday Oct. 19, the weekend of the 18th Anniversary of the Million Man March, and will be followed the next day by a keynote address by the Honorable Minister Louis Farrakhan. We look forward to greeting you, so kindly register by September 19th so we can assist you with making your arrangements. We look forward to receiving a favorable consideration from you.

Please register with us at: www.buildinganewworldconf.com

Sincerely,

Brother Jalil Muhammad, Howard University c/o 2011
National Director
